I. BACKGROUND

The Berkeley Municipal Pier is located at the western end of University Avenue near the intersection of University Avenue and Seawall Drive in the Berkeley Marina, Berkeley, California. The Pier was constructed in 1926 and originally extended 3.5 miles into the Bay. It offered two-lane vehicle traffic on the structure that used the transbay auto ferry dock at the end of the pier. In the early 1960's, the wooden decking was replaced with concrete planks, and the Pier has been used for pedestrian recreational activities since that time (sightseeing, fishing, etc.), with occasional access by City maintenance vehicles.

In July, 2015, the Pier was closed for public use due to structural issues. Visual observations found extensive concrete spalling on the underside of the concrete planks that exposed the bottom reinforcing bars to salt water. Extensive corrosion has occurred, with many bars snapped, some separated from the concrete, and some completely corroded away.

The Berkeley Municipal Pier is a beloved asset to the City and the entire region. The objectives of this assessment are to: 1) assess the structural integrity of the Pier, develop concepts for rehabilitation alternatives, identify environmental permitting requirements for the alternatives, determine construction cost estimates with the intent to reopen the Pier for public recreation use in the most cost effective manner, and help the City to identify applicable grant funding; 2) provide a technical study documenting the improvements associated with potential commuter passenger ferry transportation use at the Pier using small, medium, and larger sizes of watercraft that are suitable for Bay Area ferry service.

II. SCOPE OF SERVICES

The Scope of Services listed below is not definitive and is intended only as a guide to illustrate the minimum project requirements. All prospective consultants are encouraged to present additional alternative scopes to produce a more efficient approach to complete the project.

1. Project Initiation: obtain condition survey baseline information by site visits, and reviewing available City records.
2. Inspection Plans and Schedules: develop damage logs and plans to facilitate structural field inspection.
3. Perform structural inspections above and below the water line: conduct condition survey of the existing structure and identify structural components that require structural repair. The structural condition survey should be conducted in accordance with Chapter 31F of the 2010 California Building Code (MOTEMS) and ASCE Underwater Investigations Standard Practice Manual, and any other applicable standards.

Above water line inspections shall be performed by marine structural and civil engineer. Inspection items including, but are not limited to, railing, decking, bents, pilings, and any under deck utilities...etc.

Below water line inspections shall be performed by a qualified inspection diver team. All visible aspects of the piles shall be surveyed, from the tops above the water to the mudline in the water

4. Provide a preliminary assessment of the existing structure on its current limitations for use by the City and the public.
5. Develop conceptual pier rehabilitation alternatives that will address the needs of dead, live, and seismic loads to meet current building and safety codes for the purpose of public recreational use, and commuter passenger ferry transportation.
6. Identify types of ferry vessels that would be suitable to operate at the Pier in all tide conditions. Identify the modifications to the Pier that would be needed for these vessels to operate service at the Pier.

7. Identify environmental permitting requirements for the rehabilitation alternatives, including CEQA, U.S. Army Corps, National Marine Fisheries Service, BCDC, Regional Water Board, California Dept of Fish & Game, and any other applicable jurisdictions.
8. Provide construction cost estimates for the rehabilitation alternatives.
9. Provide recommendations on the alternatives using cost, environmental impacts, construction, and other feasibility factors.
10. Assist the City in identifying applicable grant funding such as Measure AA: San Francisco Bay Clean Water, Pollution Prevention and Habitat Restoration Measure, etc.
11. Generate a structural condition assessment report stamped by a structural engineer, containing at least the following:
 - o Structural Layout Plan and Typical Cross Sections
 - o Field Observations, Notes, and Photographs
 - o Structural Conditions and Significance
 - o Condition Summary Plan
 - o Rehabilitation alternatives and recommendations
 - o Preliminary CEQA Determination and a List of Applicable Environmental Regulation Permits
 - o Construction Bid Cost Estimates for the alternatives
 - o Potential Grant Opportunities

VI. **CITY REQUIREMENTS**

A. Non-Discrimination Requirements:

Ordinance No. 5876-N.S. codified in B.M.C. Chapter 13.26 states that, for contracts worth more than \$3,000 bids for supplies or bids or proposals for services shall include a completed Workforce Composition Form. Businesses with fewer than five employees are exempt from submitting this form. (See B.M.C. 13.26.030)

Under B.M.C. section 13.26.060, the City may require any bidder or vendor it believes may have discriminated to submit a Non-Discrimination Program. The Contract Compliance Officer will make this determination. This applies to all contracts and all consultants (contractors). Berkeley Municipal Code section 13.26.070 requires that all contracts with the City contain a non-discrimination clause, in which the contractor agrees not to discriminate and allows the City access to records necessary to monitor compliance. This section also applies to all contracts and all consultants. **Bidders must submit the attached Non-Discrimination Disclosure Form with their proposal**

B. Nuclear Free Berkeley Disclosure Form:

Berkeley Municipal Code section 12.90.070 prohibits the City from granting contracts to companies that knowingly engage in work for nuclear weapons. This contracting prohibition may be waived if the City Council determines that no reasonable alternative exists to doing business with a company that engages in nuclear weapons work. If your company engages in work for nuclear weapons, explain on the Disclosure Form the nature of such work. **Bidders must submit the attached Nuclear Free Disclosure Form with their proposal.**

C. Oppressive States:

The City of Berkeley prohibits granting of contracts to firms that knowingly provide personal services to specified Countries. This contracting prohibition may be waived if the City Council determines that no reasonable alternative exists to doing business with a company that is covered by City Council Resolution No. 59,853-N.S. If your company or any subsidiary is covered, explain on the Disclosure Form the nature of such work. **Bidders must submit the attached Oppressive States Disclosure Form with their proposal.**

D. Conflict of Interest:

In the sole judgment of the City, any and all proposals are subject to disqualification on the basis of a conflict of interest. The City may not contract with a vendor if the vendor or an employee, officer or director of the proposer's firm, or any immediate family member of the preceding, has served as an elected official, employee, board or commission member of the City who influences the making of the contract or has a direct or indirect interest in the contract.

Furthermore, the City may not contract with any vendor whose income, investment, or real property interest may be affected by the contract. The City, at its sole option, may disqualify any proposal on the basis of such a conflict of interest. **Please identify any person associated with the firm that has a potential conflict of interest.**

E. Berkeley Living Wage Ordinance:

Chapter 13.27 of the Berkeley Municipal Code requires that contractors offer all eligible employees with City mandated minimum compensation during the term of any contract that may be awarded by the City. If the Contractor is not currently subject to the Living Wage Ordinance, cumulative contracts with the City within a one-year period may subject Contractor to the requirements under B.M.C. Chapter 13.27. A certification of compliance with this ordinance will be required upon execution of a contract. The Living Wage rate is currently \$14.42 (if medical benefits are provided) or \$16.81 (if medical benefits are not provided). The Living Wage rate is adjusted automatically effective June 30th of each year commensurate with the corresponding increase in the Consumer Price Index published in April of each year. If the Living Wage rate is adjusted during the term of your agreement, you must pay the new adjusted rate to all eligible employees, regardless of what the rate was when the contract was executed.

F. Berkeley Equal Benefits Ordinance:

Chapter 13.29 of the Berkeley Municipal Code requires that contractors offer domestic partners the same access to benefits that are available to spouses. A certification of compliance with this ordinance will be required upon execution of a contract.

G. Statement of Economic Interest:

The City's Conflict of Interest Code designates "consultants" as a category of persons who must complete Form 700, Statement of Economic Interest, at the beginning of the contract period and again at the termination of the contract. The selected contractor will be required to complete the Form 700 before work may begin.

VII. OTHER REQUIREMENTS

A. Insurance

The selected contractor will be required to maintain general liability insurance in the minimum amount of \$2,000,000, automobile liability insurance in the minimum amount of \$1,000,000 and a professional liability insurance policy in the amount of \$2,000,000 to cover any claims arising out of the performance of the contract.

The general liability and automobile insurance must name the City, its officers, agents, volunteers and employees as additional insureds.

B. Worker's Compensation Insurance:

A selected contractor who employs any person shall maintain workers' compensation insurance in accordance with state requirements. The workers' compensation policy must include a waiver of subrogation in favor of the City. Sole proprietors with no employees are not required to carry Worker's Compensation Insurance.

C. Business License

Virtually every contractor that does business with the City must obtain a City business license as mandated by B.M.C. Ch. 9.04. The business license requirement applies whether or not the contractor has an office within the City limits. However, a "casual" or "isolated" business transaction (B.M.C. section 9.04.010) does not subject the contractor to the license tax. Warehousing businesses and charitable organizations are the only entities specifically exempted in the code from the license requirement (see B.M.C. sections, 9.04.295 and 9.04.300). Non-profit organizations are granted partial exemptions (see B.M.C. section 9.04.305). Persons who, by reason of physical infirmity, unavoidable misfortune, or unavoidable poverty, may be granted an exemption of one annual free license at the discretion of the Director of Finance. (see B.M.C. sections 9.04.290).

Vendor must apply for a City business license and show proof of application to Purchasing Manager within seven days of being selected as intended contractor.

The Customer Service Division of the Finance Department located at 1947 Center Street, Berkeley, CA 94704, issues business licenses. Contractors should contact this division for questions and/or information on obtaining a City business license, in person, or by calling 510-981-7200.

D. Recycled Paper

All reports to the City shall be on recycled paper that contains at least 50% recycled product when such paper is available at a cost of not greater than ten percent more than the cost of virgin paper, and when such paper is available at the time it is required. If recycled paper is not available the Contractor shall use white paper. Written reports or studies shall be *printed on both sides of the page* whenever practical.

E. State Prevailing Wage:

Certain labor categories under this project may be subject to prevailing wages as identified in the State of California Labor Code commencing in Section 1770 et. seq. These labor categories, when employed for any "work performed during the design and preconstruction phases of construction including, but not limited to, inspection and land surveying work," constitute a "Public Work" within the definition of Section 1720(a)(1) of the California Labor Code requiring payment of prevailing wages.

Wage information is available through the California Division of Industrial Relations web site at: http://www.dir.ca.gov/OPRL/statistics_and_databases.html
